MORNING CHRONICLE, A NEW DAILY PAPER,

TO BE ESTABLISHED IN THE CITY OF BALTIMORE.

It is with unleigned reluctance that the subscriber begs leave to solicit the attention of the Public to a New Daily Paper, which he proposes with all possible expedition to establish in Baltimore, to be denominated THE MORNING CHRONICLE.

With legard to the pilitical character of this publication, he scorns any concealment —it will be decidedly of the Federal cast: That federalism, which was known and practised in the day of Washington—that federalism, for which Hamilton wrote 8 fought, and for which Hamilton wrote 8 fought, and for which Montgomery tell—that fede-ralism, which, with a large and comprehen-sive view, embraces all characters, so ar as they augment the prosperity and the grandeur of their country, and which turns an eve of the most ranscendant distain on the little; despicable, mean, personal bickerings for office—that federalism, which would raise, ennoble, and aggrandize the character of our desirable. ter of our dear and beloved country, and in opposition to that detestable, muslicom federalism, whose only aim is to raise and to aggrandize private families.—that federalism, that exult- in the spectacle of our country's greatness; that delights to behold the starspangled banner glittering over every sea; our commerce bounded by no other restric tions than those of the ocean-that federal ism, that cheers the honest husbandman at his plough, the merchant at his desk, and the mechanic at his anvil. He is too old, and the grave too near, for the subscriber to turn an apostate now; to lend himself to the scurvy meanness of individual ambition: or to mistake his own welfare for the welfare of his country. These are the federal sen-timents of the Editor, and such as he will be governed by until the hour of his dissolu He seeks not individual patronage, he looks for support on his countrymen at large—it he tails in this appeal to their con-fidence, he is content to remain unnoticed and forgotten.

Late Editor of the Federal Republican and Baltimore Telegraph.

TERMS.

THE MORNING CHRONICLE will be published daily, at eight dollars per ann. From the patronage already offered, and from the flattering prospects held out, it is expected the publication will be commenced the 1st of October next. Although the Editor intends it shall be a newspaper, it is not his wish nor his interest to disregard the marine and me cantile departments; in these he will be assisted by persons we'l acquaint ed with the management of a commercial

paper.
It is intended to issue from the Morning Ch onicle office, assoon as a sufficient number of subscribers are obtained, a paper for the Country, to be published twice a week, at four dollars per annum, which will contain all the news matter of the daily paper.

Every attention will be given to forward

the paper to subscribers at a distance without delay.

BALTIMORE HOSPITAL 24th August. 1818.

The board of visitors have much pleasure in announcing to the public, that within the last eighteen months, a large & elegant addition has been madeto this valuable institution, in the erection of the East wig of the building. This wing is 152 feet in length, and 36 in width, with an extensive Southern protection at its extreme tast end. It con-tains between 30 and 40 apartments, admirably calculated for the accommodation of every class of patients. Of this number are several large and airy wards, intended particularly for the reception of seamen, and well adapted to their various diseases. These different rooms and wards will be warmed by open fires, and by heated air thrown into them, from furnaces constructed on a safe and improved plan Arrangements will also soon be made, for lighting the apartments

so soon be made, for lighting the apartments in the entire building with gas.

The unwearied exertions of Doctors Mac Kenzie and Smyth, the attending Physicians of the Hospital in their attention to the construction of the building, and their care of the sick, have given a character to this Institution, which is now inferior to none in the United States. In the short space of six years, a most noble establishment has been erected—a thing without parallel in this country. It is well known, that above half a century has been consumed in bringing the Hespitals of New-York and Philaing the Hespitals of New-York and Phila-delphia to their present size, and it is admitted by many gentlemen, who have visit ed the Institutions, that the Hospital here is I v far the most extensive; the whole build

ings being now.300 feet in length.

The daily increase of the sick in the Hos pital, renders it absolutely necessary that the new wingsho dd be furnished; and every exertion is now making to have it com

pleted, before the cold weather shall set in.
The visitors at their late meeting, examined the Institution with much care\_the a partments of the sick in the private infirm-ary—those in the lunatic asylum—and the wards of the sick and disabled seamen in the Marine Hospital—and they assert with confidence, that the sick and afflicted of every description are well accommodated and carefully attended They have seen at their different meetings, the private patient com-fortable; the wretched marine humanely taken care of; and the sailor, disabled by age, wounds and sickness, well provided with suitable medical assistance, & with eve rv other comfort which his condition may require Indeed the agreeable situation in which this very useful class of men are place ed, does much credit, as well to the Director of the Marine Hospital, as to the attending physicians, to whose immediate care they are entrusted. Every praise too, which the visitors can bestow, is due to Mr. & Mrs. Gatchel, the Stewart and Matron of the Hospital, for the neat and clean manner in which the House is uniformly kept, and for their care and attention to the adminis tra ion of the internal economy of the es

tablishment. Before they conclude this account of the Hospital, the visitors would invite the at-tention of their fellow citizens throughout the United States to the ANATOMICAL CA-BINET OF WAX PREPARATIONS, by CHI APPI, which certainly far surpasses any thing of the kind ever exhibited in this country; and will afford to those whose cu-riosity may lead them to see how "learfully and wonderfully they are made," but more especially to the medical student, a fund of useful information.

The Hospital is under the care of the following medical gentlemen:
